1 GENERAL INFORMATION

1.1 Introduction

All Infrastructure Managers involved in Rail Freight Corridor «Atlantic» publish in their internet websites their Network Statement (NS), and maintain it updated at least in yearly base. Each NS can be downloaded by clicking on the following links:

	http://www.sncf-reseau.fr/en/network-statement-of-the-national-rail-network
	http://www.adif.es/en_US/conoceradif/declaracion_de_la_red.shtml
	http://www.infraestruturasdeportugal.pt/rede/ferroviaria/diretorio-da-rede
	http://fahrweg.dbnetze.com/fahrweg-en/network_access/network_statement/network_statement_2016.html

1.2 Objective

According to the structure of the Corridor Information Document (CID) of Rail Freight Corridor N°4 «Atlantic» (Atlantic Corridor) this Book 2 summarizes the contents of the Network Statements of the Infrastructure Managers (IM) involved in relation to the relevant aspects of rail freight traffic.

The structure of the NS of DB NETZ AG, SNCF Réseau, ADIF and INFRAESTRUTURAS DE PORTUGAL (IP) meets the guidelines of the association Rail Net Europe and consequently their content is easily comparable.

This Book 2 contains references to all chapters of the NS except:

- information on terminals that are included in Book 3 of the CID.
- information on Capacity Allocation that is included in Book 4 of the CID.

The NS are mandatory for Railway Undertakings (RU) and authorised applicants (AA).

1.3 Legal Framework

The NS of each country is based on international law and European Union (regulations and directives) and in the laws of each country and specific regulations of each IM.

For more information, see section 1.3 of each NS

1.4 Legal Status

1.4.1 General Remarks

The contents of the NS must be followed by the RU that use the Rail Network, especially regarding the technical conditions of the operations and their restrictions, capacity allocation and pricing.

In the event of any material differences between the NS and legislation currently in force, the latter prevails.

1.4.2 Liability

Each NS contains a description of the basic elements of the French, Spanish, Portuguese and German national rail network and its use, as they stood at the date of its publication.

Railway undertakings are invited to consult DB NETZ AG, SNCF Réseau, ADIF and IP for further details, in particular regarding any changes in the infrastructure of the national rail network occurring between the publication of the NS and the period to which it applies.

DB NETZ AG, SNCF Réseau, ADIF and IP also invites the reader to report any errors found in this document and undertakes to correct them at the earliest opportunity.

In addition, DB NETZ AG, SNCF Réseau, ADIF and IP cannot guarantee the content of websites referred to these documents. If DB NETZ AG, SNCF Réseau, ADIF or IP are informed of any rights violations regarding these sites, they undertake to delete the links of the sites in question.

For more information, see section 1.4.1 of NS 

For more information, see section 1.4.1 and 1.4.2 of NS 

For more information, see section 1.4.2 of NS 

For more information, see section 1.4.4 of NS 

1.4.3 Appeals procedure

In accordance with the Transport Code, appeals may be lodged with the Bundesnetzagentur (BNetzA) in Germany, Autorité de Régulation des Activités Ferroviaires (ARAF) in France, Comité de Regulación Ferroviaria (CRF) in Spain, and Autoridade da Mobilidade e dos Transportes (AMT) in Portugal, by those authorized to request railway infrastructure capacity, if they consider themselves to be the victims of unfair treatment, discrimination or any other prejudice connected with access to the rail network, in particular in relation to the provisions set out in NS.

For more information, see section 1.4.2 of NS 

For more information, see section 1.4.1 and 1.4.2 of NS 

For more information, see section 1.4.3 of NS 

For more information, see section 1.4.5 of NS 

1.5 Structure of the NS Excerpt

In order to facilitate the integrated consultation of subjects along all the 4 Network Statements, the NS excerpt published in this Book, comprehends main chapters 2 to 6, each containing a table with the following information:

NS Excerpt of Atlantic Corridor	IP	ADIF	SNCF Réseau	DB Netz AG
RNE CID Book 2 Common Structure	Structure of IP NS	Structure of ADIF NS	Structure of SNCF Réseau NS	Structure of DB Netz AG NS

Information related with the structure of each IM NS was introduced according to the legend below:

✓	Content exist
✘	Content does not exist
5.3.5	Content exists in this chapter of the IM NS

2 ACCESS CONDITIONS

3.7	Infrastructure Development	✓	3.9	3.9	3.9

NSSF = Network Statement for Service Facilities

4 CAPACITY ALLOCATION

The Atlantic Corridor specific capacity allocation process is described in Book 4 of this CID.

For all other international types of capacity requests, the national NS should be consulted.

For more information, see Chapter 4 of each NS.

5 SERVICES

Network Statement Excerpt		IP	ADIF	SNCF Réseau	DB Netz AG
5	SERVICES	✓	✓	✓	✓
5.1	Introduction	✓	✓	✓	✓
